Interests

Chess   **Book Reading**

Full Stack Developer skilled in Next.js, React.js, TypeScript, JavaScript, Express.js, and Supabase, with experience building scalable and user-focused web applications

Experience

Neuraoak Technologies Private Limited   **March 2025 - Present**
Associate Product Engineer   Hyderabad, Telangana, India

- Engineered an RCM (Revenue Cycle Management) platform using Next.js (TypeScript) and Supabase, streamlining healthcare billing operations.
- Delivered real-time claim processing, secure data storage, and automated reporting features, improving operational efficiency.
- Utilized Cursor IDE to accelerate development cycles and maintain high code quality.
- Optimized UI/UX for intuitive workflows, increasing user satisfaction and reducing task completion time.

HighRadius Technologies   **July 2023 - Nov 2023**
Software Development Intern   Bhubaneswar, Orrisa, India

- Gained industrial exposure to designing REST APIs.
- Learned Java, SQL, Hibernate, Struts, and Spring in a professional environment.

HighRadius Technologies   **May 2023 - July 2023**
Tech Summer Intern

- Built a mini full-stack web app using Java, JDBC, MySQL, and React.
- Applied basic user requirements, UI, and backend development.

Education

Kalinga Institute Of Industrial Technology , Bhubaneswar   **August 2020 - June 2024**
          B.Tech.
Computer Science and Engineering
8.98 CGPA

Nosegay Public School , Sri Ganganagar   **April 2019 - March 2020**
CBSE   12th
83.2%

A.S.M Public School , Padampur , Sri Ganganagar   **April 2017 - March 2018**
CBSE   10th
86.2%

Certifications

Full Stack Development
Internshalla
May 2025

Volunteering

Desire Foundation
Public Relation Intern
Sept 2022 - Aug 2023

- Conducted fieldwork in slum areas, promoting education and distributing 100+ notebooks.
- Coordinated with teams to organize meetings and improve collaboration.

Projects

Currency Calculator   **May 2025**
🔗 https://currency-calculator.jayant.org.in/

- Built a cash denomination calculator with notes, date tracking, and Supabase CRUD.
- Developed in React with custom CSS for a clean, responsive UI.

E-commerce Application   **Feb 2025**
🔗 https://ecommerce.jayant.org.in/

- Built an e-commerce platform with product browsing, cart, and real-time updates.
- Developed a responsive UI using React, React Router, and Redux.

Custom Drag & Drop Calculator   **Jan 2025**
🔗 https://cddc.jayant.org.in/

- Built a drag-and-drop calculator using React, Zustand, and Tailwind CSS.
- Added dark mode, backspace, clear all, and duplicate prevention features.

Game Spot   **Jan 2025**
🔗 https://game-spot.jayant.org.in/

- Developed a Game Spot featuring three interactive games: Rock Paper Scissors, Dare You, and Tic Tac Toe.
- Utilized Next.js and Tailwind CSS to ensure simplicity and ease of use.

Weather App   **Nov 2025**
🔗 https://weather.jayant.org.in/

- Developed a weather app using Next.js, OpenWeather API, and Tailwind CSS.
- Implemented city search and geolocation-based weather retrieval.

ToDo App   **Oct 2025**
🔗 https://todo-app.jayant.org.in/

- Built a task management app with React and Vite.
- Enabled adding, editing, completing, and deleting tasks.
